

Easy living at Arena

HOUSE buyers continue to gravitate towards medium density living such as the range of town houses at AV Jennings' Arena at Officer neighbourhood.

Those buying off the plan can choose from a selection of town houses in picturesque surrounds near the wetlands sanctuary.

The Mirabel Collection, the latest release at Arena, is a collection of eight houses with views of the wetlands sanctuary.

They are three-bedroom two-storey designs with a range of features including dishwasher, blinds and ducted heat-

ing. Peter Vlitaz, AV Jennings executive general manager, said that each house had been designed to enhance light and space in a practical and contemporary style.

"Each comes with a long list of features and finishing touches," Mr Vlitaz said.

"From floor coverings and fittings to landscaping and fencing, everything is taken care of."

Arena is attracting buyers from young couples to families and empty nesters as it offers a wide range of living options to suit all lifestyles and budgets. Options include land only, house-and-land pack-

ages, and completed town houses. Young couples, growing families and empty nesters have been calling Arena home, with more than 200 residents now living on the development.
